

Promoting multilevel governance for tuning up biodiversity protection in marine areas  
TUNE UP

Priority Axis 3: Protection and promoting Mediterranean natural and cultural ecosystems  
through strengthening the management and networking of protected areas

### **Deliverable 4.2.1** **Joint methodology for MPA Contracts implementation**

Lead Partner: Anatoliki

Project Partner in charge: ROMATRE (coordinator)

Project partners involved: ALL

Work Package 4 - Transferring

Activity 4.2 Transferring Territorial Contracts methodology

Version: FINAL - Date: 30.07.2021

This document is an intermediate output of the project Interreg MED TUNE UP - *Promoting multilevel governance for tuning up biodiversity protection in marine areas*, co-financed by the European Regional Development Fund via the Interreg Med Programme, and specifically 'Deliverable 4.2.1 - Transferring Territorial Contracts methodology'.

The project faces the need for a strategic and collaborative approach to Mediterranean Marine Protected Areas (MPAs) management and biodiversity protection. The core idea of the project is to exploit the feasibility and flexibility of the Environmental Contract methodology in Med MPAs. This methodology, aimed at transferring the Environmental Contracts beyond TUNE UP project partnership, has been developed in the framework of 'WP4 – Transferring' under the coordination of the Department of Architecture of Roma Tre University and with the contribution of all partners. This document resumes the main steps and phases faced by the TUNE UP partnership, coordinated by ANATOLIKI SA, in the implementation of 10 MPA Contracts in Mediterranean countries.

For enhancing its transferability, this work has been published in the open access scientific journal U3 - *UrbanisticaTre* (ISSN 1973-9702) in the section *leNote di U3*, that is recognized by ANVUR and promoted by Scholars of the Department of Architecture of the Roma Tre University working in the field of the Urban Studies.

<b>Lead Partner Foreword</b>	<b>06</b>
<b>Scientific coordinator Foreword</b>	<b>07</b>
<b>1. An overview of Mediterranean Marine Protected Areas</b>	<b>11</b>
1.1 Mediterranean Marine Protected Areas	
1.2 An outlook of the status of MPAs in the Mediterranean	
1.3 Legal framework and policies for coastal and marine environment protection	
1.4 International targets: achievements and future steps	
<b>2. Open challenges for governance of Mediterranean Coastal and Marine Protected Areas</b>	<b>31</b>
2.1 Marine governance in action: criticalities, solutions and capacity building	
2.2 A good practice on governance of coastal wetlands in the Mediterranean: the Handbook	
2.3 Linking socio-economical and environmental challenges in med mpas	
<b>3. Environmental Contract methodology for MPA governance</b>	<b>43</b>
3.1 The Environmental Contract tool	
3.2 The Environmental Contract process: inputs and outputs	
3.3 Preparatory stage	
3.3.1 Definition of the territorial area to be considered by the Contract	
3.3.2 Governance structure and first commitment	
3.3.3 Inputs: Context analysis	
3.3.4 Participation strategy	
3.4 Development stage	
3.4.1 Intermediate outputs: scenarios	
3.4.2 Final outputs: Action Plan and commitment to act	
<b>4. Lesson learned from TUNE UP pilots</b>	<b>71</b>
4.1 An overlook on TUNE UP pilots	
4.1.1 The Environmental Contract as a legal act: constraints and steps forward	
4.1.2 Key features of the target MPA	
4.1.3 Key themes addressed from scenarios	
4.1.4 Key stakeholders engaged	
4.2 TUNE UP target areas and pilot processes	
4.2.1 Thermaikos Gulf, Greece	
4.2.2 Cabo De Gata-Níjar, Spain	
4.2.3 Sinis Peninsula – Mal Di Ventre Island, Italy	
4.2.4 Karaburun Sazan, Albania	
4.2.5 Secovlje Salina, Slovenia	
4.2.6 Albufera de Valencia, Spain	
4.2.7 Former Saltworks of Camargue, France	
4.2.8 Boka Kotorska Bay-Sopot and Drazin vrt, Montenegro	
4.2.9 Amvrakikos Gulf, Greece	
4.2.10 Ventotene and Santo Stefano Islands, Italy
